**SECTION J – LIST OF DOCUMENTS, EXHIBITS AND OTHER ATTACHMENTS**

This Standard/Requirement Identification Document (S/RID) is a list of Applicable Laws, Regulations, Regulatory Permits and Agreements, and DOE Directives for the Fernald Environmental Management Project (FEMP). The list was developed in accordance with the DOE approved process to evaluate the work and the associated hazards and identify an appropriately tailored set of standards, practices, and controls under 48 CFR(DEAR) 970.5204-78. This S/RID has been approved by DOE Headquarters, Environmental Management Division.

This list is a compilation of the major laws and regulations, major permits, major agreements with regulators, and DOE Directives/Standards applicable to work performed under the terms and conditions of this contract. Omission of any applicable law or regulation from this list does not affect the obligation for the contractor to comply with such law or regulation pursuant to the terms of the contract.

The contractor is responsible for compliance with the requirements made applicable to this contract regardless of the performer of the work. The contractor is responsible for flowing down the necessary provisions to subcontracts at any tier to which the contractor determines such requirements apply.

The contractor shall make recommendations annually for update to this list in conjunction with the annual update to the Safety Management System Description Document as discussed in DEAR 970-5204-2, *Integration of Environment, Safety, and Health into Work Planning and Execution (June 1997)*.

**\* CLARIFICATIONS:**

1. The contractor is required to comply with Rules and Regulations in effect as of the date of contract award. DOE proposed CFRs that are not final as of the date of contract award are not identified in this document as mandatory requirements. Instead, the contractor will implement the applicable requirements from the underlying DOE Orders pending codification of the final rules.
2. The DOE Standard DOE-STD-1098-99 "Radiological Control" (its predecessor, the DOE Radiological Control Manual DOE/EH-0256T) as identified in this Section J- Attachment 2 S/RID list is part of the site S/RID and is contractually enforceable. The specific provisions of this standard which have been incorporated into the site-specific radiological control manual which are contractually enforceable are identified in the table below.

Proposed changes to the Contractor Site RCM shall be formally transmitted to the DOE Contracting Officer within 90 days of the contract award. Annual recommendations to update the site RCM and the Section J- Attachment 2 list shall be made in conjunction with the annual update to the Safety Management System Description Documents as discussed in DEAR 970.5204-2.
